

FAST Solutions[®]

BIN STOCK

Our bin stock solutions are a perfect fit for all those production and MRO items you can't dispense out of a vending machine but still need on your shelves. Each customer program is unique, but all share a common foundation:

- A labeled location for each part
- A targeted inventory range for each location
- And a nearby Fastenal store to make sure you always have just the right amount on hand

With multiple service and technology options, we'll tailor a solution that meets **YOUR** business needs.

Free Storage Equipment Program

As a part of a local bin stock service agreement, Fastenal offers a variety of storage equipment at **NO COST**.

- Bins
- Drawers
- Shelves
- Signage
- Cabinets
- Labeling
